About me

I'm a Frontend engineer and also have experience in backend.
Came to Israel for a Masa Program, and currently working in the Hi-Tech industry at TagBox for 7 months getting the responsibilities of the frontend with React.js. Looking for a place where I can add value with my technical knowledge, team player spirit and detail oriented skills experience. Attention to pixel-perfect details.

TAGBOX / Frontend developer

February 2021 - Present, Tel Aviv

Responsible for the development of a chrome extension that allows users to create bookmarks and add tags. Done with **ReactJs**, **React-Router**, and **Context**.
Develop new features and screens from design to production on the main product, working with **HTML, CSS 3, ReactJS** and **Mobx** for state manager.
Experience with **component-based** structure and **hooks**.
Build a service layer that retrieves information from APIs.
Deployment on Amazon Amplify feature branches for testing.
Participated in code review with other Frontend developers in the company.

GLAMIT / Java + ReactJS developer

July 2020 - December 2020, Buenos Aires

Developed an omnichannel system using Java for backend and ReactJs for frontend.
Developed an API using controllers and services layer for the business rules;
Implementation of DAOs for access to DB information; Training new team members.
Tools: Spring Framework; GIT; Jira to ticket tracking.

GLAMIT / PHP backend developer

January 2019 - June 2020, Buenos Aires

Developed new functionalities in PHP, based on the Magento ecommerce system.
Developed an internal system in PHP, using Laravel Framework.
Implemented bug fixes and fulfillment of SLA requirements.
Designed MySQL database.

GLAMIT / Tester Analyst

March 2018 - December 2018, Buenos Aires

Executed test cases, and reported bugs and incidents in the Assembla tracking tool.
Documented new functionalities.
Process data gathering in order to improve the system, making proposals of new functionalities to be implemented.
Communication with development and business teams.

CENTRO COMUNITARIO KADIMA / Youth Department Director

March 2017 - February 2018, Buenos Aires
Coordination of community leaders and supervisors on non-formal education activities.
Responsible for supervising educational projects;

TRUELOGIC SOFTWARE / Tester QA

April 2015 - February 2017, Buenos Aires
Development of test plans based on product requirements. Test cases execution; tracking the results on the Jira tool. Bugs and incidents reporting. Cross browsing test.
